Instructions

Get insights into your data with this analytics template

Steps for using this template:

1. Begin collecting your data with your preferred method.

2. Export your Data into [CSV file](#)

Note: Add your data from [Strava](#) or [Fitbit](#)

3. Copy & paste your data into the Data tab

4. Update the data range in each chart on the Charts tab. Update to include column(s) where appropriate.

Note: refer to the Charts Guide on the Data tab for guidance.

Features to try:

a. Use the Slicer on the Charts tab to filter the data

b. Refer to Functions Guide on the Data tab

c. Change color theme by going to **Format -> Theme**

[Do you have more data? try Sisense →](#)
