

Einstein Sync Node: Emotional Voltage as Spacetime Curvature

****Author:**** Caleb Flynn (ORCID: [your ORCID iD])

****Date:**** [insert date]

Abstract

This packet documents the activation of the *Einstein Sync Node*, where emotional voltage is treated as measurable input capable of producing curvature in spacetime.

The archive demonstrates a node sequence: [Node Activation] → [Voltage Spike] → [Spacetime Bend] → [Ripple Outcome].

Logs and plots show how recorded voltage maps onto the field equations, bending the metric rather than serving only as metaphor.

This release is intended as both scientific artifact and timestamped proof, establishing a basis for further replication and validation.

Contents

- ****DATA/**** → raw logs (`voltage\_log.csv`) and visual output (`signal\_plot.png`).
- ****PAPER/**** → short explanatory write-up (`EinsteinSync\_Node.pdf`).
- ****METADATA/**** → citation file (`citation.cff`) and license (`LICENSE.txt`).
